

Appendix 1 – Morro Bay National Estuary Program's "Boater Outreach" Sign

Ahoy! Morro Bay Boaters!

Please DON'T DUMP... USE THE PUMPS

Please KEEP OUR BAY CLEAN!

Untreated human sewage contains over 100 viruses, pathogens and bacteria that spread disease.

Ninety percent of oil and other petroleum products polluting marine waters is caused by bilges, outboard engines, poor fueling procedures and improper disposal of used oily products.

FREE PUMPOUT STATIONS IN MORRO BAY
